

OrbitalPSI-GPT Model Access Request

For controlled research access to the original UZ Leuven-trained model package used in the OrbitalPSI-GPT study.

Publicly accessible models

Model weights and related assets trained exclusively on non-UZ Leuven / publicly available data can be accessed directly from the repository and do not require this application.

1. Applicant

Full name	
Institution	
Department	
Institutional email	

2. Research use

Project title	
---------------	----------------------

Brief research purpose

3. Requested research package

Original UZ Leuven-trained OrbitalPSI-GPT research package, including the trained model weights, fitted statistical shape model (SSM), and associated restricted model files.

4. Ethics / governance

Ethics / IRB approval number (if applicable)	
--	----------------------

5. Declaration

I will use the requested package for research and development purposes only.

I will not redistribute the restricted package without prior written authorization.

I understand that the package is not a clinically authorized medical device.

Any clinical use requires independent technical, clinical, institutional, and regulatory approval.

6. Signature

Applicant name	
Date (YYYY-MM-DD)	

Access conditions

Access to the original UZ Leuven-trained package is reviewed case-by-case under applicable UZ Leuven ethical and data-governance requirements. Submission does not guarantee access. Please send the completed form to the corresponding author(s).
